

ANIMAL CRACKERS

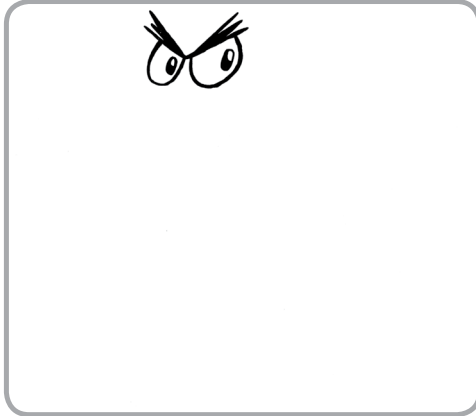

FANTASTIC FACTS ABOUT YOUR FAVOURITE ANIMALS
SARAH WEBB & ALAN NOLAN

Draw a Dinosaur!

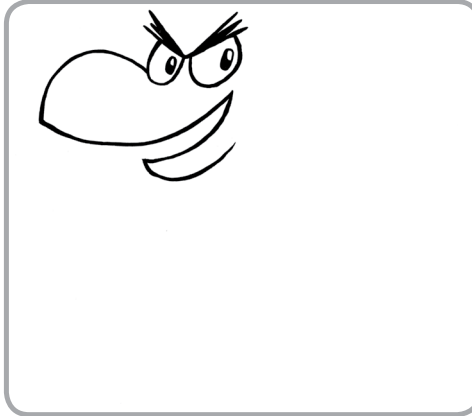

That drawing is dino-mite!

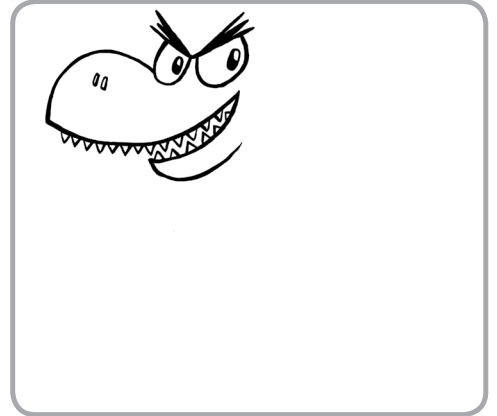

1 Start with the dinosaur's eyes and eyebrows

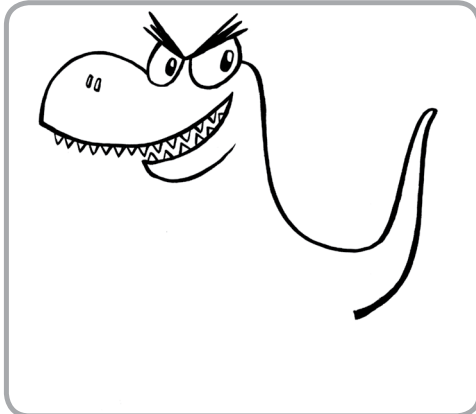

2 Add the nose and mouth

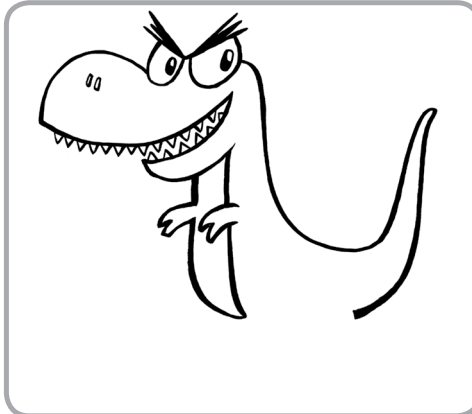

3 Draw the dino's nostrils and big, sharp teeth

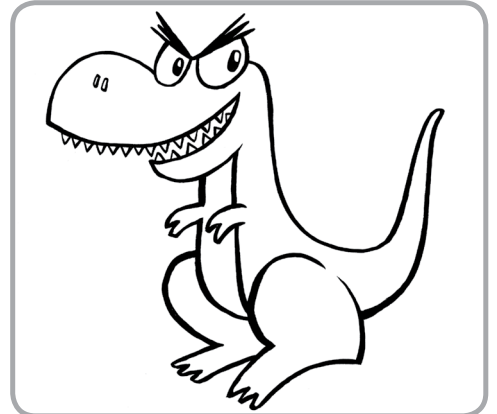

4 Next, draw the dinosaur's back and tail

5 Now, draw the front arms and tummy

6 Finish off by drawing the legs - RRAAWWRR!

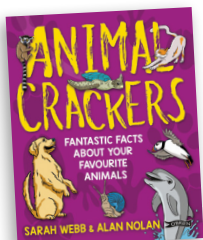

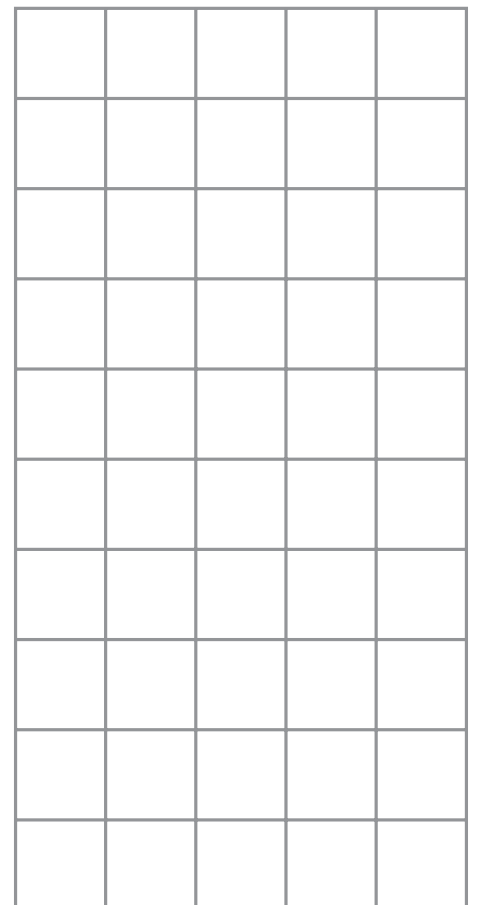

Deadly Dinosaur Facts

-  For around 160 million years, dinosaurs ruled the earth.
-  Dinosaurs were huge reptiles, much bigger than any animals today.
-  Scientists know a great deal about dinosaurs from fossils.

Draw a Tiger!

The largest and heaviest Big Cat is the Tiger. Tigers can grow up to 2.8 metres long and can weigh up to 300kg - that's the weight of four people!

Follow the picture here and use the grid on the right as a guideline to draw your tiger. You can colour in your picture when you're finished!
